

DRESTER CLASSIC 1000 BY HEDSON

High performance gun cleaner for water-borne paint

Drester 1000 by Hedson has been dominating the water-borne cleaning market, and with its robustness and user friendliness it still has no equivalent. Beside its unequalled 35 litre/10 gallons capacity and user-friendly, it has a built-in waste recycling system, which saves money and the environment.

- Prepared for different set-ups depending on paint brand
- Foot operated for hands-free operation
- Automatic water evacuation

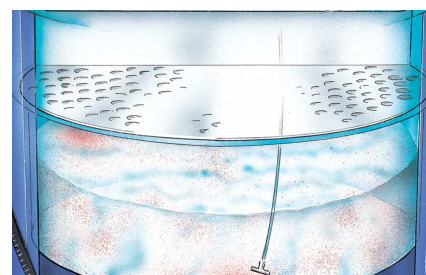

HANDS-FREE

Drester Classic 1000 is foot operated for hands-free operation, optimizing user friendliness for the operator

AUTOMATIC WATER EVACUATION

After filtration the water can be re-used or pumped away into the drain (subject to local Water Authority approval). This means that manual evacuation of Drester 1000 is not necessary

ROUND SINK

A round sink with no welding seams for easy and convenient cleaning and maintenance, any residues can easily be detected
