

DRESTER WASTE MANAGEMENT BY HEDSON

Improve work environment and collect paint waste in a efficient way

Keep a safe and clean work environment with the simple and smart solution with Drester Waste Management by Hedson. The waste management improves your environment and gets rid of paint residues and other waste in a safe and efficient way in compliance with all applicable European directives and standards. The unit comes in three different models: one for liquid waste, one for solid waste and one model combining the two. Each model has two compartments, so you can easily separate two different types of waste, for example waterborne paints from solvent borne. The waste is collected in drums underneath.
