

## HERKULES LIFTING BY HEDSON

### Herkules HLS 3200

The Herkules HLS 3200 by Hedson - with a loading capacity of 3,2 tons - is constructed for heavy vehicles. This creates a safe work environment and provides the possibility also for SUVs and small vans. The lift is also equipped with an extended platform, which also allows lifting for extended vehicles. The smooth lifting increases the access to damaged areas and the ergonomic work process.

- 3,2 tons lifting capacity
- Wheel supported
- Extended platform
- On-ground or flush mounted installations

### HIGH CAPACITY

With a loading capacity of 3,2 tons - is constructed for heavy vehicles. This creates a safe work environment and provides the possibility also for SUVs and small vans

### SPACE SAVINGS

The lift is equipped with an extended platform, which also allows lifting for extended vehicles. The smooth lifting increases the access to damaged areas and the ergonomic work process. The lift is easy to install and facilitate an individual planning of body shops by using the existing space optimally

### ERGONOMIC

The lifting and lowering of the working height is done safely and smoothly optimizing the ergonomics and working environment for personnel

## TECHNICAL SPECIFICATION

---

### HERKULES HLS 3200

Herkules HLS 3200 - version 1	Part.no. HLS 3200-11
Herkules HLS 3200 - version 2	Part.no. HLS 3200-14
Herkules HLS 3200 - version 3	Part.no. HLS 3200-16
Herkules HLS 3200 - version 4	Part.no. HLS 3200-17
Herkules HLS 3200 - version 5	Part.no. HLS 3200-18
Weight	850 kg (1875 lbs)
Lifting height	Variable to strain
Loading capacity	3,2 tons
Air supply	6 bar
Working height - version 1, 4, 5	~ 1050 mm
Working height - version 2, 3	~ 950 mm
Object height only - version 1, 4, 5	122 mm
Pit depth - version 2, 3	130 mm
Installation - version 1	On-ground
Installation - version 2	Flush mounted
Installation - version 3	Flush mounted with CE-stop
Installation - version 4	Transmobile
Installation - version 5	Transmobile with drive over ramps (4 pcs)

### ACCESSORIES

Filter control system 1/2"	Part.no. 700-259
Grids frame with grids, zinc coated	Part.no. 300-380
Fitting frame (grids), zinc coated	Part.no. 300-371
Fitting frame (grids), primed	Part.no. 300-372
Fitting frame (concrete), primed	Part.no. 300-373
Fitting frame (concrete), zinc coated	Part.no. 300-374
