

HERKULES PAINTER BY HEDSON

Safe lifting for all kind of works around the vehicle, suitable in the prep area and spray booth

Herkules Painter by Hedson secure a safe standing and ergonomic working position for the painters when working at higher vehicles. The wheels on the lift make it easy to move around in the workshop. Due to its construction, the lift is excellent for small spaces in the prep area as well as in the spray booths. On the platform of the lift there are several air supplies as well as storage space for the tools, therefore they are always within reach.

- Smooth lifting and lowering
- Excellent for small spaces
- Safe working position
- Smart tool storage on the platform

SAFE AND ERGONOMIC

Safe standing and ergonomically optimized working position for working at higher vehicles. Smooth lifting and lowering for a safe working environment

FLEXIBILITY

Easy maneuvering even in small spaces, perfect for jobs in the prep area as well as in the spray booth

OPTIMIZED WORKFLOWS

Smart tool storage and compressed air directly accessible on the platform, always having tools within reach, saving time as workflow will not be interrupted
