

IRT IR DRYERS BY HEDSON

IRT 3 & 4 PrepCure

Speed up the drying process of putty, filler and clear coat with the IRT 4 PrepCure by Hedson. With two digital timers, the dryer is very easy to use.

These dryers are equipped with a compact cassette that is controlled by two digital timers – Flash off up to 30 minutes, Full bake up to 30 minutes. Even the smallest models are very efficient and perfect for curing on small to medium-sized surfaces

TIME SAVING

Speed up the drying process of putty, filler and clear coat with the IRT 3 and 4 PrepCure by Hedson. With two digital timers, the dryer is very easy to use

EASY TO USE

The two digital timers - Flash off 50% output power, Full bake 100% output power - makes the dryer very easy to use. The settings will remain after power off making the start up easier next time

HIGH LEVEL

The cassette is balanced with a gas filled damper and can easily be operated with one hand. With IRT 4 PrepCure, you can reach a height of 2,150 mm, enabling curing of car roofs on high cars
