

IRT RAIL SYSTEMS BY HEDSON

IRT Rail Systems - Infrared Dryers 3-20 PcD

These dryers are suspended in permanently installed rails and is easy gliding and self-balancing, both laterally and vertically in all directions. As the electric power supply is integrated in the rails, there are no loose cables dragging along the floor disrupting work and raking up dust.

ADVANCED TECHNOLOGY

Computerized curing process, 12 pre-set and 3 custom programs. The pyrometer ensures exact temperature control and the laser circle indicates where temperature measuring takes place - all to optimize the job result

CUSTOMIZATION

Can be customized to suit all workshops for a optimized workflow and personalized needs. Reach and quickly manoeuvre the heater into the perfect curing position, reaching all parts of the vehicle

EFFICIENCY

These dryers are suspended in permanently installed rails and are easy gliding and self-balancing, both laterally and vertically in all directions. As the electric power supply is integrated in the rails, there are no loose cables dragging along the floor disrupting work and raking up dust
