

HEDSON LIFTING BY HEDSON

Hedson HLS 3213 - AirgoMatic

With a capacity of 6500 lb (3.2 tons) and a lifting height of 4' 37" (1.3 m), the AirgoMatic 3213 sets new standards. It is suitable for the most common car types and offers space-savings in the workshop, thanks to only 4.37" (110 mm) high cantilevers and proportionately short ramps it's space-saving in the workshop.

- Fast and easy installation
- Low maintenance cost
- Minimal space requirements in workshop

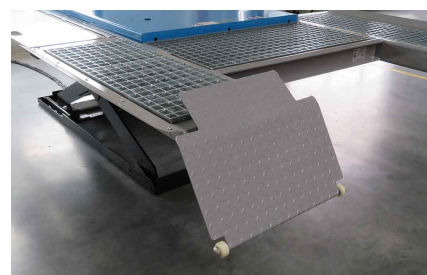

HIGH CAPACITY

The lifting and lowering of the working height is done safely and smoothly with an AirgoMatic HLS 3213 by Hedson and increases the access to damaged areas and the ergonomic work process with loading capacity up to 6500 lb

SILICONE & OIL FREE

As all lifts by Hedson are silicone & oil free (PWIS-free, stands for paint-wetting impairment substances) - the risk of spreading silicone in the shop is eliminated and thereby making sure jobs do not have to be redone

ERGONOMIC & SPACE SAVING

Ergonomically friendly and space saving as minimal space is required in the workshop due to the low cantilevers
