

IRT RAIL SYSTEMS BY HEDSON

Reaching and maintaining the highest quality curing results has never been easier. With an IRT Rail System by Hedson, quickly manoeuvre the heater into the perfect curing position, reaching all parts of the vehicle.

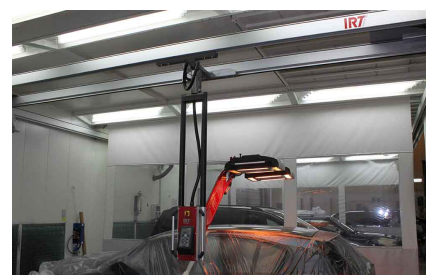

SAFETY

As the electric power supply is integrated in the rails, there are no loose cables dragging along the floor disrupting work and raking up dust or risking personnel tripping on cables, making it a safer working environment

CUSTOMIZATION

Can be customized to suit all workshops for a optimized workflow and personalized needs. Reach and quickly manoeuvre the heater into the perfect curing position, reaching all parts of the vehicle

EFFICIENCY

Reach and quickly manoeuvre the heater into the perfect curing position, reaching all parts of the vehicle, ensuring less risk for unintentional damage to the car. Excellent fit in tight areas between cars
