

Herkules AirgoMatic Pro 3513

Powerful lift with innovative details for the body and paint shop

Herkules AirgoMatic
Pro 3513 DUO-11

THE INNOVATIVE LIFT FOR THE CLEVER PAINT SHOP OWNER

The new generation of Herkules lifts is characterized by a functional and well thought-out design.

Many innovative details help simplify everyday work in the paint shop. Despite the compact design, which also characterizes the previous Herkules lifts, longer and heavier vehicles can also be lifted on the new AirgoMatic Pro 3513 thanks to intelligent roll-off protection and a lifting capacity of 3.5 t. New technology makes the DUO function safer and easier to use than ever before.

Herkules AirgoMatic Pro 3513 DUO-11

Benefits

- Lifting capacity of 3.5 t for lifting vans and heavy electric vehicles
- Lifting height 1300 mm for ergonomic work
- Space-saving and elegant design
- Innovative roll-off protection; vehicles with longer wheelbases also fit on the lift without any problems
- Easy to use thanks to easily accessible supports
- User-friendly slider for the duo function for lifting on chassis
 - Easy and safe to use with immediate visual check
 - Innovative slider: Automatic reset prevents incorrect operation
- Modular pneumatics with optional features
 - Lifting limiter, which can also be deactivated by pressing a button
 - Forced venting of the air bellows, residual air in the bellows is avoided, thus no damage to the underbody of the vehicle when driving down
- Low construction height of 10 cm, for cars with low ground clearance
- Long arms, so lifting points are easily accessible for large and very small vehicles
- Standard CE stop according to the DIN standard, automatic stop when lowering at 15 cm above the ground, when lowering to the ground an acoustic warning signal sounds

Innovative roll-off protection

Extremely flat design

User-friendly slider

The core element of every pneumatic lift - the air-bellow

Benefits for assembly and maintenance

- Simple assembly thanks to useful assembly aids
- Easier conversion from on-ground lift to in ground and vice versa
- Air bellows easily replaceable
- Easy maintenance of the sliding blocks

Duo or not Duo - that is the question

The Herkules AirgoMatic Pro 3513 DUO can lift vehicles on chassis or alternatively standing on wheels.

The Herkules AirgoMatic Pro 3513 can lift a car standing on its wheels.

HERKULES AIRGOMATIC PRO 3513

Versatile lift for the workshop or the paint booth

Herkules AirgoMatic Pro 3513 -11

Benefits

- Easy access to all areas of the vehicle thanks to fold-down runway
- Versions for installation on-ground or in-ground
- All lifts are equipped with CE stops
- Optional forced venting of the air bellows
- Optionally available with ATEX certification.

Herkules AirgoMatic Pro 3513-14 - concrete in-ground installation

Herkules AirgoMatic Pro 3513-14 -Installation in spray booth

TECHNICAL DATA			
Lifting capacity	3,5 t	Overdrive height	100 mm
Lifting height		Pit depth	150 mm
- On-ground	1300 mm		
- In-ground	1150 mm		
Air supply	6 - 8 bar		
Art. No.	Weight	Wheelbase max.	Version
HLS3513-11	997 kg	3700 mm	On-ground with CE Stop
HLS3513-14	1017 kg	3700 mm	In-ground with CE Stop

Herkules AirgoMatic Pro 3513-11 - easy access due to fold-down runways

Herkules AirgoMatic Pro 3513-11 - stable and hardwearing due to double sliding blocks

HERKULES AIRGOMATIC PRO 3513 DUO

Flexible lift for all requirements in the workshop and in the paint booth

Herkules AirgoMatic Pro 3513 DUO-11 - even big vehicles can be lifted

User-friendly slider

Benefits

- Arms same height as main body for the on-ground installed version, therefore low installation height of 10 cm, for cars with low ground clearance
- User-friendly slider for the duo function for lifting on chassis
 - Easy and safe to use with immediate visual check
 - Intuitive operation: Two clear options - lifting on wheels or lifting on chassis, simple and safe
- All lifts are equipped with CE stops
- Long arms, so lifting points are easily accessible for large and very small vehicles

HERKULES LIFTING EQUIPMENT

Pneumatic technology

- Faster than hydraulic systems
- Silicone- & oil free to prevent damages to paint jobs
- No electricity needed

Ergonomic working process

- 85% of damages are located beneath the window, so lifting is always an ergonomic advantage
- Stepless lifting heights - safe and smooth

More flexibility

- Lifting on wheels, lifting on chassis or a combination of both
- Installation on-ground, in-ground or integration in existing rail systems
- Mobile lifts or transport system for lifts

Optimized efficiency

- Fast lifting and transport of vehicles
- Optimal view on damages for best repair quality
- Yearly checks of lifts can be done by owner

High-quality engineering

- TÜV-certified
- User-friendly
- Robust and durable due to 40 years of experience
- Easy to install in the workshop

Qualified technical customer support

- Spare parts even for older lifts
