

DRESTER W-450 POWERWASH BY HEDSON

Smart and space saving wheel washer for every workshop

— PERFORMANCE ABOVE ALL —

EFFICIENT CLEANING RESULT

The Drester W-450 PowerWash by Hedson is a compact wheel washer for every workshop

Drester W-450 PowerWash by Hedson is a basic and easy to use wheel washer that can be installed in every workshop where tyres are handled. The advanced fixed nozzle geometry enables a very efficient cleaning of all kinds of wheels.

The wheel washer works with a closed water system. This means that the machine can be placed anywhere in the shop. No need for a water connection and a drain next to the machine and the water consumption per washed wheel is very low.

If required, the Drester water cleaning method can be used. By using a coagulation agent and a mixing motor, water and residuals are separated. The filtered clean water can be let out into the drain. After the use of the Drester water cleaning system, the waste water fulfils all the authority limit values and requirements.

- Manually loading of wheels
- Two fixed nozzles
- Energy saving heater
- Prepared for waste handling

TECHNICAL DATA			
Wheel width	135-305 mm	Weight without water/granules	180 kg
Wheel diameter	560-800 mm	Driving motor	0,18 kW
Max Wheel Weight	45 kg	Pump motor	5,5 kW
Air pressure	8-16 bar	Pump capacity	550 l/min
Power supply	400V, 3~, 50 Hz, 16 A 230V, 3~, 50 or 60 Hz	Water consumption	1 l/wheel
Measures (HxWxD)	1437x1109x995 mm
